

	TITLE	DURATION
Program of the Sessions	3rd September	
	Raw Material Choice and Ornaments: Aesthetics, Availability, Social Value and Manufacturing Considerations	FULL DAY
	Identifying and interpreting food taboos: a zooarchaeological approach	FULL DAY
	Exploitation of animal resources in the prehistory of the South-East Europe	FULL DAY +
	Conservative, consistent and comparative: Papers in Zooarchaeology honoring Richard H. Meadow	3 QUARTERS
	Archaeozoology beyond the bones: future and prospects of biomolecular and physico-chemical analyses	3 QUARTERS+
	GENERAL session	FULL DAY
	4th September	
	Zooarchaeology in Turkey: contributions to understanding human-animal relationships at the crossroads of the Old World	FULL DAY
	High-resolution analyses of dental remains: broadening horizons	FULL DAY
	The diversity of exploitation and ritual use of animal in ancient East Asia	3 QUARTERS
	Paleoecology of the Quaternary using Microvertebrate records	HALF DAY
	Macrofauna vs. Microfauna: investigating the same questions at different scales	1 QUARTER
	GENERAL session	FULL DAY
	Understanding cattle-human interactions: interdisciplinary approaches to an ancient relationship	FULL DAY + 1 QUARTER
	5th September	
	Understanding cattle-human interactions: interdisciplinary approaches to an ancient relationship	FULL DAY + 1 QUARTER
	Zooarchaeology in the Pacific	1 QUARTER +
	Putting the humor back into zooarchaeology	1 QUARTER +
	Mobile pastoralism through the interdisciplinary lens	1 QUARTER
Bone refits in faunal analyses: Case studies and applications in archaeological assemblages	1 QUARTER	
Teeth: to know, to eat, to use	1 QUARTER +	
Excuse me, there is a hare in my soup! Taphonomic studies on small vertebrates	1 QUARTER +	
GENERAL session	HALF DAYx3	
6th September		
Animal Domestication and Biotic Exchange in East and Central Asia	FULL DAY	
GENERAL session	FULL DAY	
The archaeology of human impact on faunas: between historical and biological sciences	3 QUARTERS+	
Zooarchaeology for Global Challenges	3 QUARTERS+	
From Macroscopic to Molecular Methods and Techniques: A Discussion on Tools for the Study of Archaeofaunal Remains	HALF DAY	
Commensal vertebrates as bioproxies for human processes	HALF DAY +	
Animal remains and built space – contribution to the taphonomy of buildings	HALF DAY	
Teaching and outreach in zooarchaeology	HALF DAY+	
7th September		
GENERAL session	HALF DAY	
Animal introduction, adaptation and exploitation around the Baltic and beyond	3 QUARTERS	
Long term temporal trends in animal use	FULL DAY	
Social Networks and Animal Ageing and Sexing	3 QUARTERS	
Contextual Taphonomy in Theory and Practice	3 QUARTERS	
Animal Health in Archaeology: Integrating Landscapes, Populations, and Individuals	HALF DAY	
Zooarchaeology and stable isotope analysis in arid and semi-arid environments	HALF DAY	
Shells of molluscs as archaeological and environmental records	FULL DAY
